Co-author of a study included in the monograph: Anterior Cruciate Ligament, Sauramps Medical, 2016, ISBN 979-1-03-030076-5

[Single use custom made instrumentation, the future of total knee arthroplasty?](#) Spaltenstein M, et al. Rev Med Suisse. 2014. Article in French

Präsentationen

Présentations à des congrès

SSO 2009 (Genève)

Compression of the sciatic nerve caused by a tear in the hamstring muscles

SOTS 2011 (Bratislava - Slovaquie)

Lateral unicompartmental arthroplasty – single center experience and review of literature

SOTS 2011 (Bratislava)

Sonication as a new method in diagnostic of prosthetic-joint infection

SSO 2013 (Lausanne - Suisse)

Management of Schatzker VI tibial plateau fractures with hybrid external fixation: Case series and review

EFORT 2015 (Prague)

Surgical management of recurrent musculotendinous hamstring injury in professional athlete

SSO 2015 (Bâle)

Proximal Tibial Anterior Closing Wedge Osteotomy in Repeat Revision of Anterior Cruciate Ligament Reconstruction

SSO 2015 (Bâle)

Outcome of a combined ACL and ALL reconstruction technique with a minimum 2-year follow-up

SSO 2015 (Bâle)

Unicompartmental arthroplasty for knee osteoarthritis – Meta-analysis. CHUV, Lausanne

Posters

EFORT 2010 (Madrid)

Compression of the sciatic nerve caused by a tear in the hamstring muscles

EFORT - 2014 (Londres)

Management of Schatzker VI tibial plateau fractures with hybrid external fixation: Case series and review

EFORT - 2014 (Londres)

Is obesity a contraindication for a unicompartmental knee arthroplasty? A retrospective case series involving twenty knees

SSO 2015 (Bâle)

Surgical management of recurrent musculotendinous hamstring injury in professional athlete

SOFcot 2016 (Paris)

Discoid Lateral Meniscus In A Twelve Year Old Child. A Case Report and Review Of Literature

EFORT 2017 (Vienne)

Arthroscopic treatment of a displaced bucket-handle tear of medial meniscus in a 82-year-old patient

SOFcot 2018 (Paris)

L'effet de la pente tibiale postérieure sur les résultats fonctionnels d'une prothèse totale du genou postéro-stabilisée implantée à l'aide des guides de coupe sur mesure selon la planification 3D
