1997	Certified member, ESMO (European Society of Medical Oncology)
1991	ECFMG (Educational Commission for Foreign Medical Graduates) certification
1986	Diploma in medicine, University of Geneva, Switzerland

## Competences

Originally from Brehmen, Dr Volker Kirchner studied at the Faculty of medicine at the University of Geneva, subsequently spending around a decade at the Hôpitaux Universitaires de Genève, where he worked as a Resident, initially in medicine, before moving to oncology and haematology, working his way up to Assistant chief resident. He then spent a few months working in basic research at Geneva, before making his way to Harvard University in Boston, where he continued his education with a three-year research fellowship.

After this, he returned to Geneva for a further year, working as Chief resident at the Hôpitaux Universitaires de Genève before once again heading back to the United States. Around the turn of the millennium, Dr. Kirchner joined the prestigious MSKCC (Memorial-Sloan Kettering Cancer Center) in New York, where he spent two years completing a fellowship in haematology-oncology. He has maintained close links with the MSKCC ever since, and has helped the Center create synergies with the Clinique de Genolier.

After returning to Switzerland, Dr Kirchner spent several years working at the Sonnenhofspital in Bern, part of the Lindenhofgruppe. After earning FMH certification, he joined the Clinique de Genolier in 1998, setting up his own practice. Dr. Kirchner is a man with many strings to his bow, working as a Team leader for haemovigilance, pharmacovigilance and materiovigilance for Swissmedic, the Swiss medical products authority, as well as being heavily involved in local policy within Nyon and carrying out studies. He earned a postgraduate diploma in economics and health administration. from the Faculty of Business and Economics in Lausanne, as well as a range of other postgraduate certificates and diplomas, including in pharmaceuticals and palliative care.

The most recent additions to his portfolio have been the positions of Programme director at the Genolier Cancer Center and Member of the Advisory board of the Swiss Medical Network.

## Memberships
